

alta™ antimicrobial

Alta incorporates antimicrobial technology into its formulations for textiles in healthcare seating, privacy curtain, senior living and outdoor applications. Our antimicrobial technology is grounded in a zinc-based chemistry, which is non-ionic and highly-compatible with Alta's repellency properties.

Specific features and benefits of Alta's antimicrobial include:

- ✓ Zinc based formulation (same as store-bought dandruff shampoo!)
- ✓ Highly-compatible with other chemistries
- ✓ Effective against bacteria, fungi, mold and mildew
- ✓ Able to bond with wide array of fabrics
- ✓ Non-leaching and environmentally safe
- ✓ Able to withstand 70 industrial launderings
- ✓ Can achieve >99.9% bacterial reduction
- ✓ No impact on softness or hand of the untreated fabric
