

altaTM food and beverage

alta[™] food and beverage

because real life hates fabrics.

Alta™ allows your beautiful design to function in real life. With every spill and cleaning, Alta™ technology remains bonded to the fibers of the fabric offering undetectable stain repellency for the life of the fabric. With the inclusion of the Durablock® liquid barrier, liquids, even left to sit, will not penetrate your fabrics, leaving the cushions protected for years to come!

features & benefits

✓ FR Code Compliance:	CAL TB 117-2013
✓ Repellency (High):	AATCC 22 and 118
✓ Cleanability (High):	ASTM D1308/ CFFA 141 Method II
✓ Liquid Barrier (High):	AATCC 127
✓ Pilling (High):	ASTM D3511
✓ Abrasion (High):	ASTM D4966
✓ Seam Strength (High):	ASTM D4034

For added protection against frequent food and beverage spills Alta™ has you covered.

cleaning & care guidelines

Fabrics treated with Alta™ are exceptionally easy to clean and maintain.

1. Liquid spills: Don't wait!

Blot liquid quickly and gently with a clean, dry, absorbent cloth. If liquid remains, continue with gentle blotting. Gently remove any soil or debris from the surface.

No rinsing needed.

2. If any residual spot remains: Flush liberally with warm water and blot with a clean, dry, absorbent cloth. Change blotting cloth surface frequently, until spot is gone. (Avoid brushing which can spread the stain!) Repeat process until spot has been removed. Finish with final warm water rinse and blot.

3. For difficult or stubborn stains: Mix 2-3 drops of any mild laundry detergent with 1 cup of water and apply to soiled area. Gently work solution into the area, wait several seconds and blot the spot with a clean, dry, absorbent cloth. Repeat until spot has been completely removed. Rinse thoroughly with warm water and blot to remove any soap residue. (Be thorough here: soap not rinsed away in the fabric can cause a recurring stain!)

Join the Resistance.

We exist to transform the contract textiles world by challenging the status quo.

We don't make or sell fabrics; we make them better with transformative technologies and certified testing that redefine what it means to be "high performance."

Food service textiles are no exception. Our formulations are engineered to meet the particular needs of these environments, so when real life takes hold — no matter where that happens — your fabrics will perform and endure beautifully.
