

### List of Cleaners

Alta has been tested against 40-50 different cleaners that fall into the three categories of cleaning chemicals used in medical facilities (Peroxides, Bleach, and Quaternary cleaners). Alta™ has been resistant to all these cleaners and effective. We also have a remarkable record of no field failures in these facilities. To give you an idea of some of the cleaners, I have listed them below.

Virox RTU Wipes

Cavi wipes XL

Virex II 256

Sani-cloth Wipes

Oxivir TB

Wexcide 128

Oxycide (Ecco lab)

Oasis 146 (Ecco lab)

TB Disinfectant (Ecco lab)

Isopropyl Alcohol

10% bleach

20% Bleach

409

Zout

Hand sanitizer
