# Science By Design

Applied Textiles is changing the textile industry by marrying cutting edge performance technology, Alta™, with an A2LA accredited lab and easy supply chain management.
We don't make fabric, we make it better.

Alta™ is the latest technology created by Applied Textiles, Inc. and enables virtually any textile to withstand the rigors of real life without leaving a mark. Alta improves cleanability and can enhance physical properties for a wide array of natural and synthetic fibers. The technology is permanent and imperceptible to the eye and hand. Alta is precision-engineered for end-use textile applications including relevant fire code compliance.

Features

- Stain repellency: oil and water based stains
- Easy cleanability
- Permanent

Reduced Environmental Impact

- Free of any solvents or VOCs
- PFOA-FREE
- PFOS-FREE
- Water-based technology
- Complies with EPA, AL Prop 65 and REACH standards

CEU Available:

Science By Design – Let's bond over bonded chemistry! This CEU dives deeper into the science behind performance textiles. Explaining the difference between various applications, their health and environmental impact, providing you with scientific facts and data that will enable you to choose the best and safest performance technology.

The designation of this CEU is health, safety, welfare and is registered for 0.1 CEU value and listed under the IDCEC class code: 107419
