

Design & Protect: Work From Home Safety Act Discussion

On December 27, 2020, California Technical Bulletin 117-2013 became a Federal mandate within the United States. Under this mandate, all residential and contract upholstery products will be required to comply with Cal TB 117-2013 by June 25th, 2021.

Applied Textiles is here to educate you on the requirements and what these changes may mean for you. Applied Textiles is offering a CEU that will cover the importance of Cal TB 117-2013, steps towards compliancy, and ways to identify accredited testing.

The designation of this CEU is health, safety, welfare and it is registered for 0.1 CEU value.
