

Applied Textiles is changing the textile industry by marrying cutting edge performance technology, Alta™, with an A2LA accredited lab and easy supply chain management.

We don't make fabric, we make it better.

Alta™ is the latest technology created by Applied Textiles, Inc. and enables virtually any textile to withstand the rigors of real life without leaving a mark. Alta™ improves repellency to oil and water based stains, cleanability and can enhance physical properties for a wide array of natural and synthetic fibers. The technology is permanent and imperceptible to the eye and hand. Alta™ is precision-engineered for end-use textile applications including relevant fire code compliance.

Features

- Stain repellency: oil and water based stains
- Easy cleanability
- Permanent
- Does not change hand or shade.

Reduced Environmental Impact

- Free of any solvents or VOCs
- PFOA-FREE
- PFOS-FREE
- Water-based technology
- Complies with EPA, CAL Prop 65 and REACH standards
